18- Banihashemi M, Pulsetherapy Methylprednisolon in Alopecia areate. Poster presentation at the first Iranian congress of Hair Diseases and New treatment of Dermatology. 1-3 october, 2003. Tehran-Iran

Certification/Licensure: -

-Hair transplant

-Laser surgery

Memberships:

a- Iranian Society of Dermatology

b- International society of Dermatology

c- European Academic Dermatology and Venerology

Proposal:

1- Evaluation of HBS Ag in patient with lichen planus

2-Evaluation of Serum iron level in alopecia areata patients

3-Lipid serum level in psoriatic Patients

4-Evaluation of cimetidin effect on common wart

6-Pulse therapy with Methyl prednisolon in alpcia areata

7- Effect of formic acid and sodium format on hair reduction in rat

8- Comparative study of the efficacy of combined cryotherapy and intralesional meglumine antimoniante (Glucantime) vs. cryotherapy and intralesional meglumine antimoniante alone for the treatment of cutaneous leshmaniasis
