

C.V.

1.Department of: Parasitology & Mycology

2.FirstName: ABDOLMAJID

3.LastName: FATA

4. Address (office): Dept. Parasitology, Emam Reza Hospital Mashhad, IRAN

(Home): Sajjad Blvd., No128 south hamed10

5.Tel: office; (511) 8547255, **Home;** (511) 6053715, **Mobile;** 09151160466

6.Fax: (511) 8403141

7.E-mail: drafata@yahoo.com <http://www.mums.ac.ir/medical/fa/Drfata>

8.Educational Background:

- D.V.M degree, Shiraz University, 1977
- Board of Medical Parasitology, (Ph.D.) Mashhad University. 1981
- Course of Medical Mycology, Tehran University, 1981(certificate)
- ICRO/UNESCO Course on Cell Motility, Nagoya Japan, 1985
- Complementary course on Medical Lab. Science 1989 (certificate)

9.Resarch Interests:

1. Leishmaniasis (Cutaneous, Visceral)
2. Superficial Mycotic infections
3. Parasitic and Mycotic skin diseases

10. Occupational status

Assistant Professor of Medical Parasitology & Mycology (1983-1993)

Head of Department of parasitology & Mycology since 1987

Dean of School of Paramedical Sciences & health (1991-1993)

Associate Professor of Medical Parasitology & Mycology since 1993

Member of Educational Commission of the University (1991-1993)

Member of Research Commission of the University (1992-1993)

Member of Editorial Board of Journal of Medical School since March 2000

Professor of Medical Parasitology & Mycology since May 2000

Member of Board of Basic Sciences in Medical Mycology since 2000

Management Director of Journal of Medical School/since 2001

Member of Research Commission of Emam Reza Hospital (2003-2006)

Member of Cutaneous Leishmaniasis committee of Khorasan Province(since 2002)

Member of Consultation Committee of Emam Reza Hospital(since 2006)

Member of Editorial Board of Journal of Nursery School,(since 2006)

Member of Evaluating committee of Staffs of Medical school(since 1998)

Member of Special committee of Evaluation of Professors of Mashhad Medical Sciences University(since 2006)

Member of Evaluating committee of Staffs of Para-Medical school(since 2007)

12. Presentations:

Abstracts in Meetings: Title, Date and Place of presentation

A:(International)

- 1- Japan: **Motility in Parasitic Protozoa.** ICRO/UNESCO Course, Nagoya University, Nagoya, April 1985.
- 2- Australia: **Study of Infestation with *Sarcoptes scabiei* & *Demodex folliculorum* in 1647 cases with Skin Lesions in Mashhad, Iran.** ICOPA VI, 6th Int. Cong. Of Parasitology, University of Queensland, Brisbane, 24-29 Aug.1986

- 3- Australia: **Present Status of Kala-azar in Mashhad, Iran.** ICOPA VI, 6th Int. Cong. Of Parasitology, University of Queensland, Brisbane, 24-29 Aug.1986.
- 4- England: **Common fungal infections in Mashhad.** XIV INT. Cong. of Microbiology, Manchester, 7-13 Sept.1986
- 5- Netherlands: **Present Status of Giardiasis and Efficacy of 2 different drugs for Treatment.** XII Int. Cong. for Trop. Med. & Malaria, Amsterdam
- 6- Japan: **Comparison of Human Blood & Rabbit Blood used in NNN Medium for growth of Promastigotes.** VIII Int. Cong. Of Protozoology, 10-17 July 1989, Tsukuba.
- 7- Japan: **The Effect of Temperature on the life cycle of Sarcoptes scabiei.** 5th Int. Cong. Of Invertebrates, 23-28 July 1989, Nagoya.
- 8- Thailand, **Invitro study of the Effect of Juice & Extract of Euphorbia Mirsinitis on Promastigotes in NNN Medium.** XIII Int. Cong. for Trop. Med. & Malaria, Jomtien, Pattaya, Nov.29-Dec.4, 1992
- 9- Turkey: **Evaluation of 4 Lab. Methods for Diagnosis of Cutaneous Leishmaniasis.** 7th Int. Cong. Of Parasitology, ICOPAVII, Izmir
- 10- Turkey: **Present status of Scabies in Mashhad IRAN,** 7th Int. Cong. Of Parasitology, ICOPAVII, Izmir, Oct 1994
- 11- Taiwan: **Fungal & Parasitic Contamination of swimming pools of Mashhad and study the effect of 2 disinfectants .in** International Cong. of Environmental Health, Aug.1997, Taipei.
- 12- Spain: **Treatment of cutaneous leishmaniasis in murine model by alcoholic extract of Berberis vulgaris IX European Multicolloquium of Parasitology, EMOP9, Valencia.**

B- (National)

- 1- **New Endemic Foci of Cutaneous Leishmaniasis in Mashhad,** Proceedings of First Iranian Congress of Infectious and Tropical Diseases and Usage of Antibiotics, IUMS, Isfahan, October 1988.
- 2- **Retrospective Study of Parasitic & Mycotic Dermal Diseases in 583 Islamic Combatants Returning from active duties,** Proceedings of Congress of Hygiene and 8 Years War, AUMS, Ahwaz, Nov.,22-24,1988.

- 3- **Study of Parasitic Diseases in Citizens Near Caspian Sea Who has Stayed During a Short or Long Period in Mashhad.** Proceedings of First National Congress of Parasitic Diseases, GUMS, Rasht, Dec. 1990.
- 4- **Antifungal activity of lawsonia inermis in 140 patients suffering from Pityrosporiasis.** 4th National Iranian Congress of Parasitology & Parasitic Diseases, 13-16 Oct. 2003.
- 5- **Invitro study the effects of tobacco on dermatophytes.** Proceeding of 4th National Iranian Congress of Parasitology & Parasitic Diseases, MUMS, Mashhad, Oct. 13-16, 2003.
- 6- **Comparison of Secnidazol & Metronidazol in Treatment of Trichomoniasis Among Female Prisoners of Mashhad,** Abstract NO. 88, Proceeding of 4th National Iranian Congress of Parasitology & Parasitic Diseases, MUMS, Mashhad, Oct. 13-16, 2003.
- 7- **Prevalence of Fungal Contamination in Ladies Hair Dressing Saloons and Barber Shop in Mashhad and Dettol for Disinfecting the instruments.** Abstract NO. 126, Proceeding of 4th National Iranian Congress of Parasitology & Parasitic Diseases, MUMS, Mashhad, Oct. 13-16, 2003.
- 8- **Determination of Leishmania Species Causing Cutaneous Leishmaniasis in Mashhad Using Monoclonal Antibodies.** Abstract NO. 182, Proceeding of 4th National Iranian Congress of Parasitology & Parasitic Diseases, MUMS, Mashhad, Oct. 13-16, 2003.
- 9- **Comparison between the effects of Selenium sulfide & Pyrition zinc in treatment of Pityrosporiasis in medical school students.** Proceedings of 3rd National congress of medical Parasitology, SUMS, Sari 9-11 Esfand 1379
- 10- **Parasitic and mycotic Contamination of public swimming pools in Mashhad and the role of chlorine for Disinfection.** Nov., 17-19, 1997.
- 11- **Treatment of cutaneous leishmaniasis in murine model by alcoholic extract of Berberis vulgaris.** 2nd National congress of parasitic diseases, October 19-22, 1997.
- 12- IRAN: Mashhad, **In Vitro Study of the Effects of Henna Extract on pityrosporum ovale and Malassezia furfu.** Abstract NO. pt15, Proceedings of 3rd International Congress of Health, Environment & Natural Products, MUMS, 25-28 Sep, 2004.
- 13- **Antifungal Activity of Herbal Compound Containing 6 Plants Extracts,** Abstract NO. ps04, Proceedings of 3rd International Congress of Health, Environment & Natural Products, MUMS, 25-28 Sep, 2004.

- 14- **Investigation of prevalence rate of superficial and dermal fungal contaminations among medical students of mums.** Proceedings of 4th National Iranian Congress of Parasitology & Parasitic Diseases, Oct 2003.
- 15- **Investigation of prevalence rate of superficial and dermal fungal contaminations among medical students of mums.** Proceedings of 4th National Iranian Congress of Parasitology & Parasitic Diseases, Oct 2003.
- 16- **Antifungal activity of lawsonia inermis in 140 patients suffering from Pityrosporiasis.** Proceedings of 4th National Iranian Congress of Parasitology & Parasitic Diseases, 13-16 Oct. 2003.
- 17- **Correlation Between Clinical appearance, Leishmanin Test and ELISA Using Monoclonal Antibody in Diagnosis of Different Forms Of Cutaneous Leishmaniasis in Mashhad,** Proceedings of 7th International Congress of Dermatology, Center for Research and Training in Skin Diseases & Leprosy, TUMS, Tehran, Sep29- Oct.2, 2004.
- 18- **FATA A. KHAMESIPOUR A. BERENJI F. Et al,** Diffuse Cutaneous Leishmaniasis Due to Misdiagnosis, Proceedings of 2nd International Congress of news in Dermatology and Cutaneous Leishmaniasis, Isfahan University of Medical Sciences, Isfahan, Sept 29-30,2005.
 19. A Fata¹, M Mirsadraee², Fungal infection in samples of Bronchial washing in Bronchoscopy Department, Emam Reza Hospital, Mashhad, 2004-2005, Proceedings of 5th NICOPA, Shahid Beheshti Medical Science University, Tehran, Nov.15-17,2005.
 20. Fata a, et al Comparison the Efficacy of Clotrimazole, Nystatine and Povidone iodine in treatment of Vaginal Candidiasis, First international Congress of Gynecology, Mashhad, Aug.2006
 21. Fata, et al , Comparison the Efficacy of Secnidazole and metronidazole in treatment of Vaginal Trichomoniasis, First international Congress of Gynecology, Mashhad, Aug.2006

13.Certification/Licensure:

- 1-ICRO/UNESCO Course on: Molecular Basis of Cell Motility, Department of Molecular Biology, Nagoya University, Nagoya, Japan, March-April, 1985.
- 2-Educational Workshop on: Planning, Evaluation And Educational Methods, held in Medical School, MUMS, Mashhad, Dec., 2-4, 1991.
- 3-Advanced Workshop on: Planning and Educational Methods, EDC, Deputy of Education, Ministry of Hygiene, Cure & Medical Education, Tehran, Oct., 23-26,1992.
- 4- 4 Serial workshops on: Community Oriented Medicine Education (COME), Health CenterNO.1, MUMS, Mashhad, March, 1996.

5-Workshop on: First Iranian Research-Practical on Leishmaniasis Workshop, (WHO/TDR), Medical School, IUMS, Isfahan, Nov. 30- Dec.1, 1998.

6-Research workshop on: Good Clinical Practice (GCP) for Clinical Monitors, (WHO/TDR), Center for Research and Training in Skin Diseases & Leprosy, TUMS, Tehran, July, 17- 22, 1999.

14.Memberships:

Member of:

1. Iranian Medical Council Organization
2. Iranian Scientific Society of Parasitology,
3. Iranian Scientific Society of Clinical Lab. Specialists,

15.Additional Skills:

Computer Skills: skillful in office 2000, power point

, Language Proficiency: Proficient in English speaking, writing and reading

Familiar with French, and Arabic
