Name Of CD

Year

| | |
|--|------------|
| 1. positron emission tomography computed tomography | 2008 |
| 2. human brain anatomy in computerized images | 2005 |
| 3. image processing in radiology | 2008 |
| 4. image -guided radiation therapy of prostate cancer | 2008 |
| 5. medical image registration | 2001 |
| 6. mass spectrometry in drug metabolism and pharmacokinetics | 2009 |
| 7. Modern pharmaceuticals | 2002 |
| 8. MRI of bone and soft tissue tumors and tumorlike lesions | 2008 |
| 9. combinatorial chemistry | 2006 |
| 10. physics and chemistry basis of biotechnology | 2002 |
| 11. drug facts and comparisons | 2010 |
| 12. essential statistics for the pharmaceutical sciences | 2007 |
| 13. nuclear receptors in drug metabolism | 2009 |
| 14. applied survival analysis | 2008 |
| 15. packet atlas of sectional anatomy | 2001 |
| 16. thyroid cancer | 2006 |
| 17. sobotta atlas of human anatomy | version1.5 |
| 18. spiral and multislice computed tomography of the body | 2003 |
| 19. nuclear medicine | 2006 |
| 20. nuclear hepatology | 2009 |
| 21. medicinal chemistry | 2008 |
| 22. a hand book of bio analysis and drug metabolism | 2004 |
| 23. nuclear medicine technology :procedures and quick refrence | 2009 |
| 24. nuclear medicine in clinical diagnosis and treatment | 2004 |
| 25. practical pediatric PET imaging | 2006 |
| 26. musculoskeletal imaging | 2001 |
| 27. mathematical methods in survival analysis, reliability and quality of life | 2008 |
| 28. statistical methods | 2005 |
| 29. teaching atlas of nuclear medicine | 2000 |
| 30. thyroid and heart failure | 2009 |
| 31. nuclear medicine technology :procedures and quick reference | 2000 |
| 32. radioisotope therapy | 2007 |
| 33. advances in nuclear oncology | 2007 |
| 34. packet atlas of sectional anatomy | 2007 |
| 35. advancing in nuclear medicine through innovation | 2007 |
